Available for Strategic Advisory & fractional Enterprise Transformation Architecture roles ...

*SAP Business Suite | SAP RISE | S/4 HANA ERP | Business Technology Platform
Enterprise Platform Strategy | Hybrid Integration Strategy | Operating Model Advisory | Vendor Lock-in Mitigation*

25+ years of experience and a passion to continuously improve, rise and grow organizations by turning complexity into clarity. Thriving at the crossroads of SAP Business Suite technology, enterprise platform architecture, and digital innovation—helping organizations harvest business value through clean design, smart integration, and future-ready solutions. Pragmatic, curious, and driven to elevate how people, processes, and platforms work together. Always building, always improving, always moving forward.

- Expertise in SAP S/4HANA, SAP BTP, Enterprise & Solution Architecture
- Strong grounding in SAFe, Agile ways of working, and scalable delivery models
- Proven ability to design ERP templates and integrations that support global operations
- Passion for bringing innovation — especially AI, analytics, integration, and automation — into real-world value streams
- A pragmatic, down-to-earth mindset with a drive for quality, structure, and continuous improvements

With a professional services background in SAP ERP, Business Technology and Enterprise Integration, the focus at ID-PARTNERS has been to serve as a catalyst for Digital Transformation and Business Innovation. ID-PARTNERS leads SAP implementation and transformation projects with special expertise in Enterprise Transformation Architecture, Implementation, Integration and Security-by-Design concepts to apply Enterprise-Grade Platform Solutions.

Profile characteristics

Strong product- market and customer-focus. Good implementation-skills and analytical capacities. Eager to learn, drive to perfection and team player. Furthermore, creative and highly motivated with a systematic way of working.
